Local and General

—The British Columbia elections
take place on Saturday next.

—T. Blackwell went to Regina
on Monday morning and returned
in the evening.

—Prince Albert may have an
other newspaper shortly, says the
Advocate of that town.

—Mr. Fetherstonhaugh, of the
Fort, was in town on Monday even-
ing attending polo practice.

—Mr. Chas. Burley and D. A.
McDonald, of Portage la Prairie,
were in Qu'Appelle on Thursday
last.

—Mr. J. M. Cameron, General
Agent London & Lancashire Life
Association, was in town on Mon-
day last.

—Miss L. Scott returned from
Calgary on Friday night, after an
extended visit of several weeks
duration.

—Stovel's Pocket Directory for
July is to hand, and will be found
to contain valuable information to
travellers and tourists.

—Miss Beveridge left on Thurs-
day evening last for her home at
Little Mountain, Man., where she
will spend the holidays.

—The regular meeting of the
council was held in the council
chamber on July 4th. Minutes
will be in next issue.

—During the past week the
stone masons have put down the
stone foundation for the new post
office. The carpenters are expected
to start work on the building in a
day or two.

—Rev. J. P. Sargent left on
Wednesday evening's train for
Greenfield. While absent Mr. Sar-
gant will officiate at the consecra-
tion of a new church at Hyde,
north of Greenfield. He will return
to town on Saturday morning's
train.

—Mr. S. T. Gibson purchased
last week a quarter section of land,
about three miles from town, from
Mr. M. S. Matthews. This makes
the fifth quarter section Mr. Gibson
is the possessor of in the fertile
district of Qu'Appelle.

—The 1st of July passed off
very quietly in town, a good num-
ber of citizens took advantage of
the holiday to take in the sports at
Indian Head. It is asserted that
the largest crowd Indian Head ever
saw assembled there on Dominion
Day.

—Bryan & Cowan are now
in their new premises, one door
east of the Leland hotel, where they
have placed an entirely new outfit.
They can now turn out anything in
the blacksmithing line. They also
manufacture harrows and shares.
Give them a trial. adv

—Mr. G. S. Davidson received a
letter from the firm of Messrs.
Brady, Love & Tryon, grain ex-
porters, of Winnipeg, on Tuesday
last, which says they had already
made arrangements to build an
elevator at Qu'Appelle Station in
time for the present crop.

—Mr. T. J. Wilson, of Edgeley,
called on us on Monday last. He
reports crops in the Edgeley district
looking fair, and in some parts ex-
ceptionally good. The recent rains
and warm weather will help to
bring the grain ahead fast.

—A report from a source in the
west conveyed the intelligence this
week that Glen Campbell and party
were returning home. It appears
that a party named Campbell, who
has been prospecting in the country
north of Edmonton, will abandon
his expedition and return south
again. There is no evidence to
show that this is Glen's party and
may only be a similarity in name.
—Dauphin Press.

—The Winnipeg Industrial Ex-
hibition opens on Monday next,
July the 11th, and will continue
until the 16th, the entire week.
The directors of the exhibition are
making preparations to entertain a
very much larger number of people
than in former years, and we feel
sure they will not be disappointed.
Quite a large number of our town-
people purpose taking in the ex-
hibition.

—R. S. Smith and wife, of Fort
Qu'Appelle, were visitors in town
today.

—Mr. F. Cody, representing the
Hyde & Skine Co., of Brandon, is
in town today.

—Certificates of registration will
only be required for stallions in
Class C, road and carriage horses,
to be exhibited at the Central As-
sociation's Agricultural Association's
fair to be held on the 3rd and 4th
of August.

—The following pupils in Div.
II of the public schools, received
prizes:—Minnie Broley, Pearl Mc-
Cannel, Winnie McCannel, Marion
Henley, Dora Edmunds, Orla
Parker, Katie Rittinger, Marnie
Beauchamp, Willie McKenzie,
Archie Edmunds, Douglas Edmunds,
Garfield McGuck, Hattie Moore.

—It is rumored that at a meet-
ing of South Qu'Appelle agricul-
tural society, it was moved by the
president that they make Messrs
Cates and Binsley honorary mem-
bers for life, and the chairman called
for the yeas and nays. When the vote
was taken it stood 250 yeas to 1
nay. The chairman, after serious
deliberation, declared the motion
lost.

—Mr. and Mrs. P. Stewart, of
Kemell, Qu'Appelle Valley, are in
town, the guests of Mr. and Mrs.
McCannel. They visited the ex-
perimental farm, Indian Head,
yesterday, and expressed them-
selves as well pleased with the re-
ception and courteous attention at
the hands of the attendants of the
farm, particularly Mr. Milne, in
the absence of Mr. McKay, who
had gone to Winnipeg with the ex-
hibits.

During exhibition week, on Tues-
day and Wednesday, visitors to the
fair will have a rare opportunity
of listening to the world's greatest
artists in their respective lines at
the Grand Opera House, Ysape.
The famous violinist, Gerardy, 'cel-
list, and Lachme, the great pianist,
will hold the boards on those two
evenings. To those who intend
taking in the fair from this district,
we would strongly recommend a
visit to the Grand Opera House.

FOUR HUNDRED DROWNED

**French Liner La Bourgogne
Collides With Another
Steamer.**

Halifax, July 6.—The British
iron ship Cromatysire was towed
in here this morning by the Allan
liner Grecian with her bow torn
away by a collision, sixty miles
south of Sable island with the
French steamer La Bourgogne,
which went down ten minutes later.
Of the 600 passengers and crew
on board only 200 were saved.
One woman was saved by her hus-
band. The captain and other deck
officers went down with the ship.
The Cromatysire had to and
picked up the 200 passengers and
women who were rescued, trans-
ferring them to the Grecian,
which came along at that hour.

An Interesting Gathering.

At Edgeley on Monday, June
27th, a gathering of pioneer set-
tlers met at the home of J. H.
Fraser. About fifty friends and
neighbors were present, principally
those who came to the Northwest
with the host and hostess 16 years
ago. The occasion was to celebrate
Mr. and Mrs. Fraser's China wed-
ding. During the afternoon the
group was photographed with 2382
printed on the background in large
figures. After supper, which
was spread under a large green
tower erected for the occasion,
speeches were delivered by Mr. T.
W. Jackson, Indian Head; Rev. A.
Galley, Mr. Jos. Fessant and J. H.
Fraser. Mrs. Fraser was the re-
cipient of many pretty and valuable
presents.

MARRIAGES

McDonald—**Times**—On Tuesday, June 28th,
by the Rev. J. P. Sargent, Robert M.
Donald, of Vernon, to Miss Rebecca
Aimes, of London, Eng.

Miles—**Cooper**—In St. Peter's Pro-Cath-
edral, by the Rev. J. P. Sargent, Alfred
Geo. Miles to Miss Edith Cooper, both
of Vernon.

SPAIN'S DEFEAT.

**A GLORIOUS FOURTH OF JULY
FOR THE UNITED STATES.**

**Cervera's Fleet Entirely Des-
troyed and Himself
Captured.**

Washington, July 4.—The sec-
retary of the navy has received the
following:—

Playa, via Haiti, to the secretary
of the navy, Washington, 3.15 a.m.
Siboney, July 3.—The fleet under
my command offers to the nation
as a Fourth of July gift the destruc-
tion of the whole of Cervera's
fleet. No one escaped. It at-
tempted to escape at 9.30 a.m. and
at 2.2 p.m. the last, the Cristobal
Colon, had run ashore, sixty miles
west of Santiago, and let down her
colors. The Infanta Maria Teresa,
the Oquendo and Vixcaya were
beached ashore, burned and blown
up within twenty miles of Santiago.
The Furor and Pluton were de-
stroyed within four miles of the
port. Our loss is one killed and
two wounded. The enemy's loss
is probably several hundred from
gun fire, explosions and drowning.
There are about 1300 prisoners,
including Admiral Cervera. The
man killed is George H. Ellis,
chief yeoman of the Brooklyn.
(Signed) **SAMPSON.**

Advice to Spaniards.

London, July 5.—All the papers
to-day comment upon the sudden
and dramatic transformation result-
ing from Admiral Cervera's unex-
pected and suicidal action, for which
various theories are advanced. Ad-
miration for the bravery displayed on
both sides and strongly counsel
Spain to accept the inevitable and
sue for peace which would entail
no dishonor.

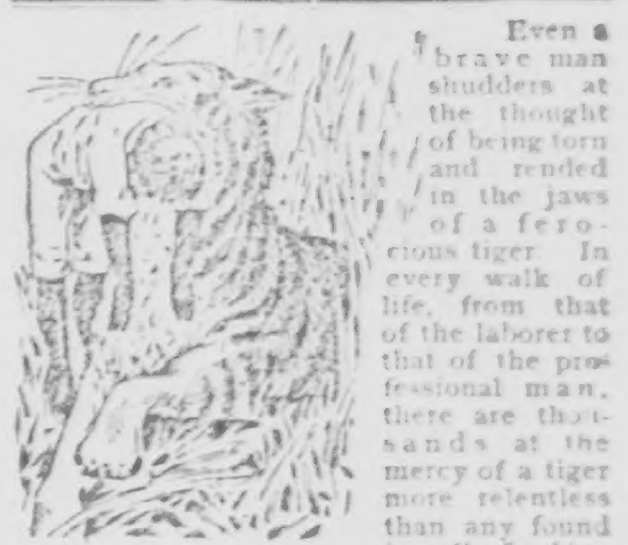

Polo Match.

On Wednesday evening last two
teams of the Qu'Appelle Polo club
played a match on the new grounds
at the race track. The match was
for the silver cups won at Indian
Head on July 1st. Messrs.
J. H. McCaul and R. Harvey were
captains for the respective teams.
"Jack" Sargent acted as referee.

The match was the most hotly
contested that has ever been wit-
nessed in the town, and was won
by Harvey's team by a score of 3-2.
Following are the names of the
players:—Dr. Creamer, H. Mus-
grove, R. Harvey, W. Henley,
J. H. McCaul, A. D. Dickson,
E. Parker, J. H. Findlay.

To Cure a Cold in One Day.

Take Laxative Brooms Quinine Tablets.
All Druggists refund the money if it fails to
cure. 25c.

That tiger is the dread disease known as
consumption. It slays more men and wo-
men yearly than there are rain drops in a
summer shower. It steals upon its victims
with noiseless tread.

There is a sure and certain protection
against this deadly disease, and a sure and
speedy cure for it, if it is resorted to in
time. It is Dr. Pierce's Golden Medical
Discovery. This wonderful medicine acts
directly on the lungs, through the blood,
tearing down old, half-dead tissues, build-
ing up new and healthy ones, driving out
all impurities and disease germs and ex-
panding the lungs and introducing life-giv-
ing oxygen into the circulation. It has
wonderful curative powers and allays all
inflammation of the mucous membranes of
the lungs and bronchial tubes. It makes
the appetite keen and hearty, the digestion
and assimilation perfect, the liver active,
the blood pure and rich with the life-giving
elements of the food, and the nerves strong
and steady. It is the great blood-maker
and flesh-builder. It has the most marvel-
ous sustaining powers of any known medi-
cine. Thousands who were upon the verge
of a premature grave have testified to their
recovery through its wonderful virtues.
Medicine dealers sell it, and have nothing
else "just as good."

When a dealer urges some substitute he's
thinking of the larger profit he'll make—
not of your welfare.
Dr. Pierce's book, "The Common Sense
Medical Adviser," is a treasure in any fam-
ily. It contains 1000 pages and 1000 illustra-
tions. A copy sent to every person who
will send to the World's Dispensary Medi-
cal Association, Buffalo, N. Y., 31 one-cent
stamps, to pay cost of postage and mailing
only. For cloth binding, send 50 stamps.

QU'APPELLE PROGRESS.

QU'APPELLE, N.W.T.

THE DAIRYING INDUSTRY.

Prof. Robertson Reports Everything In a Favorable Condition.

Professor James W. Robertson, who has just returned from an extended tour of inspection of government creameries as far west as Calgary, and north-west to Prince Albert and Yorkton, reports everything in a favorable condition. Prof. Robertson said that owing to his time being very limited he had found it quite impossible to visit all the creameries in the Territories, and this he had very much regretted. Every where the country was in excellent condition, with splendid prospects for cattle feeding and dairy business; in fact he had never seen the country look so well at this season of the year, as there has been an abundance of rain in all parts of the Territories. "The outlook for creamery business," continued the professor, "is most encouraging and we will make from 25 to 50 per cent. more butter in all our factories, except three, than we did last year. At these three factories the people have been beguiled by the high price of wheat to drop the creameries."

"Many of the best farmers in the Territories are taking up the raising of calves on skim milk and are meeting with great success. The three-year-olds fed in this way are both larger and stronger than those allowed to run with the cows. Skim milk and dry chop make larger and heavier cattle than butter fat, and besides these foods are cheaper."

"I noted with pleasure a very decided improvement in the quality of the butter turned out by our factories, due no doubt, to greater experience on the part of both cream gatherers and patrons. We are putting up a great deal of our butter in smaller packages this season, and we are securing a large share of the Japanese and other far eastern markets. Five of our factories are packing in tins for this trade, and dealers who handled our butter in Japan last season write us that already it is superseding the French and Danish butter, as it is better flavored, and we can lay it down at a slightly lower cost."

"Along the Manitoba and Northwestern I found things looking particularly well; the factory at Yorkton is turning out about 8,500 pounds per week. At Churchillburg there is a new creamery started, and there is no better building for the purpose west of Lake Superior; it will have the support of between 400 and 500 cows, all the settlement of Kinross being tributary to it. We are having the greatest possible satisfaction from our refrigerating rooms, built according to plans supplied by the department. In any of these rooms we can hold the butter at from 35 to 39 degrees."

"A question frequently asked during my trip was would not the department be willing to sell the creamery butter at a low price in the towns where it is made in order to advertise the creamery and keep down the sale of dairy butter. I may say the department are not in favor of doing this, as one of the great benefits they hoped to confer by the introduction of the factory system was the raising of the price of dairy butter to a figure which would make it a profitable industry for these farmers who were so situated that they could not send their cream to the factories. The department was quite willing to sell to anyone, however, and would sell in all towns where factories are situated at 12c for June and 15c for July."

Prof. Robertson leaves today for the east and will sail for Great Britain in company with the Hon. Sidney Fisher, minister of agriculture, on the 2nd of July. While in Great Britain they will attend a number of meetings of the various chambers of commerce and boards of trade and place before them all the information possible with a view to extending Canadian trade in Great Britain. Special attention will be given to spreading information in regard to cold storage service to help trade in butter, tender fruits, poultry and meats. Immediately upon the return of Prof. Robertson from England the department will make another trial shipment of peaches, pears and tomatoes. The later shipments last year were very successful and Prof. Robertson is hopeful of developing a large trade, especially in pears and tomatoes."

In reply to the question "How is it all Ontario fruit arrives here in bad condition?" Prof. Robertson said, "If you had a good service of refrigerator cars there is no reason why you should not have the best fruit of Ontario laid down here in better condition than you get it from California. The difficulty in the past has been that the fruit was put on the cars warm and instead of being cooled in the cars, it only melted the ice. Fruit growers are recognizing this and several of the large fruit growers in the Niagara and Essex peninsula are erecting cold storage rooms to chill the fruit before putting it on the cars. Another object of our visit to Great Britain will be to develop the trade in poultry, especially turkeys, and trial shipments of these will also be made later in the season."

The four-year-old son of W. Henderson, Hamilton, Ont., was run over by a market wagon and seriously injured.

Their Object.

Mr. and Mrs. Gaswell had moved only a few weeks before into a fashionable neighborhood and were preparing to issue invitations for their silver wedding.

"I'm afraid," said Mr. Gaswell, looking dubiously at the pile of costly stationery before him, "most of these will go to the waste."

"Why, James," responded Mrs. Gaswell, "that's what we are sending them out for."

The Fish Brigade.
They've soldiers made
Of the fish brigade—
They've gone on the ocean's foam,
An' they'll be mere fish
On the daily dish
For the folks that stay at home!

Bait your hook, believers,
And come when the waters swish;
They've soldiers made
Of the fish brigade,
An' they'll be mere fish
Than your heart can wish
For the hungry folks at home!

Bait your hook, believers,
An' come when the waters swish;
They've soldiers made
Of the fish brigade,
An' they'll be mere fish
Than your heart can wish
For the hungry folks at home!

Always worn.

Sprocket—I've just joined the Be-gunners' Cycle club.
Handlebar—What are your colors?
Sprocket—Black and blue.—Chicago Record.

Without the friendly exchange of kindly words and deeds, without the sunshine of loving looks and smiles of welcome and encouragement, a home may be a habitation but never truly a home.

A BLACKSMITH'S STORY.

He Became So Run Down That Work Was Almost Impossible—His Whole Body Racked with Pain.

From the Bridgewater Enterprise.
Mr. Austin Fancy is a well-known blacksmith living at Baker Settlement, a hamlet about ten miles from Bridgewater, N.S. Mr. Fancy is well known in the locality in which he lives. He is another of the legion whose restoration to health adds to the popularity of Dr. Williams' Pink Pills. Mr. Fancy related his story of illness and renewed health to a reporter of the Enterprise as follows: "During the last winter, owing, I suppose to overwork and impure blood, I became very much reduced in flesh, and had severe pains in the muscles all over my body. I felt tired all the time, had no appetite, and often felt so low spirited that I wish I myself in another world. Some of the time necessity compelled me to undertake a little work in my blacksmith shop, but I was not fit for it, and after doing the job, would have to lie down; indeed I often felt like fainting. I was advised to try Dr. Williams' Pink Pills, and after using a couple of boxes, I felt a decided relief. The pains began to abate, and I felt again as though life was about me. By the time I had used six boxes I was as well as ever, and able to do a hard day's work at the forge without fatigue, and those who know any thing about a blacksmith's work will know what this means. Those who are not well will make no mistake in looking for health through the medium of Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is included in a wrapper bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People."

The Widow's Well Trained Child.

Mr. Simper (to child of the house)—Come and kiss me, Dolly.
Dolly (dashfully)—You do it, mamma.—Pepper Box.

It Was All Right.

Br'er Johnsing—Heah, whatcher stealin' trash chickens fo?
Br'er Jackson—Ain't stealin' dem. Deyze Spanish game chickens, an' derefore pris'ners ob war.—New York Journal.

For the benefit of Canadian mothers, who have daughters who are weak, pale, run down or nervous, Mrs. Belanger, 128 Rideau Street, Ottawa, Ontario, made the following statement, so that no one need suffer through ignorance of the right remedy to use: "My daughter suffered very much from heart troubles at times. Often she was so bad that she could not speak, but had to sit and gasp for breath. She was so extremely nervous that her limbs would fairly shake and tremble. Frequently she would have to leave school; and finally she grew so weak that we were much alarmed about her health. I gave her many remedies, but they did not seem to do her any good."

Then I heard of Milburn's Heart and Nerve Pills, and got a box of them, and they have indeed worked wonders with her. I can recommend them very highly as the best remedy I ever heard of for complaints similar to those from which my daughter suffered."

Milburn's Heart and Nerve Pills never fail to do good. They cure palpitation, faintness, dizziness, smothering sensation, weakness, nervousness, sleeplessness, anaemia, female troubles and general debility. Sold by all druggists at 50c. a box or three boxes for \$1.25. T. Milburn & Co., Toronto, Ontario.

LAXA-LIVER PILLS act on the system in an easy and natural manner, removing all poisons and impurities. They cure Constipation, Sick Headache, Biliousness, Dyspepsia, Sour Stomach, Jaundice and Liver Complaint. Price 25c.

Disordered Kidneys.

Perhaps they're the source of your ill health and you don't know it. Here's how you can tell:—
If you have Back Ache or Lame Back.
If you have Puffiness under the Eyes or Swelling of the Feet.
If your Urine contains Sediment of any kind or is High Colored and Scanty.

If you have Coated Tongue and Nasty Taste in the Mouth.
If you have Dizzy Spells, Headaches, Bad Dreams, Feel Dull, Drowsy, Weak and Nervous. Then you have Kidney Complaint.

The sooner you start taking **DOAN'S KIDNEY PILLS** the more quickly will your health return.

They've cured thousands of cases of kidney trouble during the past year. If you are a sufferer they can cure you.
Book that tells all about Doan's Kidney Pills sent free to any address.
The Doan Kidney Pill Co., Toronto, Ont.

Mines Are Laid.

Every road and bypath leading into the city of Santiago, it has been learned, has been mined with dynamite by the Spanish soldiers, under direction of General Linares. This information was contained in a letter from Santiago just received by a Cuban now in Kingston. The correspondent added that the Spanish officers expect to do enormous damage by this system of mines. If they succeed in carrying out this plan they will annihilate the advance detachments of the Americans and Cubans when the assault upon Santiago begins.

Don't class hens as vegetables because of their eggs.

Peter the Great was half crazy through most of his life from drink and rage.

DEAR SIRS—Within the past year I know of three fat ty tumors on the head having been removed by the application of MINARD'S LINIMENT without any surgical operation, and there is no indication of a return.
CAPT. W. A. PITT,
Clifton, N. B.
Gondola Ferry.

Cowper was all his days overshadowed by the gloom of insanity.

Minard's Liniment Cures Garget in Cows.

Don't think blank leaves are desirable in the volume of business.

Minard's Liniment Cures Distemper.

Don't expect to meet a man who gets discouraged trying to live without work.

Minard's Liniment Cures Diphtheria.

Don't think because a man is an ice dealer that he is cold hearted.

Minard's Liniment Cures Colds, etc.

Gibbon was gonty. He grew so stout he could not dress himself.

Spread a little "Quickeure" on the surface of corns and cover with thin paper; the soreness will be removed at once, as it reduces the inflammation which causes pain.

Dafce had more than one dose of Newgate and the pillory.

Bacon was avaricious and his greed led to his disgrace.

A plaster made with "Quickeure" will move difficulty in breathing, and more quickly reduce inflammation than the old mustard plaster.

Tasso was poor most of his days. His miseries finally drove him mad.

Palestrina lived in poverty most of her days and died in great want.

Le Sage was poor all his life. In old age he was dependent on his son.

WINNIPEG MARKETS.

The following review is compiled from the latest and most reliable market reports, and is up to date:

The week has been a very favorable one for the growing crops. Abundance of rain has fallen over a wide area. In the Red River valley sections of Manitoba the crop prospect is excellent. West of that there are some sections which suffered from the drought earlier in the season, and the crop will be irregular. There can hardly be a full rice very in the districts where the drought was most prolonged. With railway work, building, etc., there is more work going on in the country than is usual at this season.

Wheat—Market value for No. 1 hard is about 90c to 95c.

Flour—The market is very irregular. Patent, \$2.85; strong Glensia, \$2.50; Manitoba, \$2; Imperial XXXX, \$2.

Milled—Demand good, prices steady. Bran, \$12 to \$13; shorts, \$12 to \$14 per ton.

Corn—Sales have been made at 43 1/2 to 45c on track here, per bu. of 57 lbs.

Barley—Nominal at 48 to 50c per bu. of 48 lbs.

Oats—48c to 50c per bushel.

Butter—Creamery—Less business this week. Purchases have mostly been made at 12c at factories. Choice dairy, 15c per lb; crack, 12c to 14c.

Cheese—Market easier. Price, 6c to 7c. Eggs—Fresh laid, 15c per dozen.

Dressed Meats—Market firm for beef; mutton easier and a little lower; dressed hogs, easier. We quote dressed hogs at 7 1/2 to 7 3/4; beef, 7c to 7 1/2; mutton, 8c to 9c, as to quality; veal, 7c to 8 1/2; lambs, \$2.50 to \$4 each.

Poultry—Live fow's, per pair, 50c to 60c; spring chickens, 25c to 30c per pair; turkeys, 10c to 11c per lb.

Vegetables—Potatoes, 35c to 40c per bushel; onion, imported Egyptian, 3c to 4c per lb; cabbage, 2c per lb; new cauliflower, 3 1/2c per lb; turnips, 2c to 2 1/2c per bu. Cows—Milking cows are in good demand, and good cows will bring \$35 each. Poor cows and small heifers sell at \$18 upward as to quality.

The Terror Damaged.

Captain Sigsbee, of the St. Paul, reports that on Wednesday afternoon while off San Juan, Porto Rico, he was attacked by a Spanish unprotected cruiser and the Spanish torpedo boat destroyer Terror. The Terror made a dash which was availed by the St. Paul. The St. Paul hit the Terror three times, killing one officer and two men and wounding several others. The Terror dropped back under cover of the fortifications with difficulty and was towed in a sinking condition into the harbor where she is now being repaired. Later a cruiser and gunboat started out, but remained under the protection of the forts.

THURSDAY, JULY 7, 1898.

A CURSED RING.

A Mysterious Opal that has Brought Bad Luck to Spain.

Superstitious people in Spain believe that the disastrous fortune which has befallen that country comes from a mysterious opal ring. The jewel is of very large size and of the most brilliant coloring, with a spark of living fire in its centre. It is set in twelve gold and has no other jewels about it.

The ring belonged to that famous beauty and adventuress, the Comtesse de Castiglione, who was the most beautiful woman Europe ever knew, and who was in the glow of her loveliness and power during the reign of Napoleon III, the emperor being her affectionate slave and avowing the most violent jealousy on the part of Eugenie.

This dazzling woman was always present at all great functions at the Tuileries and displayed her superb jewels and bust in bewitching relief by the lowness of her dresses. Every diplomat in France was at her feet, and among the most ardent admirers was Alfonso XII, then an onco, a pretender.

The bewitching comtesse did not spend much of her time on him at first, but when she found the chances to become king of Spain were good she snatched him, and her heart was completely turned. When he went to his throne, the comtesse was to follow him, according to agreement, and she king promised her a high position at court and his exclusive regard.

In the meantime the king had fallen secretly and deeply in love with one of his own royal blood, and his marriage took place amid much pomp and circumstance, and the beautiful comtesse to Paris was forgotten.

A few months after the king's marriage he received from the comtesse a package containing a beautiful opal ring of rare coloring. It was called a wedding gift and a memento of the friendship the king had held for the comtesse.

The king showed it to his wife, Queen Mercedes, who was charmed with its beauty and begged to keep it. Alfonso gave it to her reluctantly, and she kept it on her finger. From that moment she pined away and in a few months died.

The ring fell from her dead hand and the king, who could not bear to see it, gave it to his grand-mother, Queen Christina, who died a few months later.

Next the ring was given to Alfonso's sister, the Infanta Maria del Pilar, who wore it but a few days before she died of a mysterious illness. The king then gave the fatal jewel to his sister-in-law, the young daughter of the Duc and Duchesse de Montpensier, and in

three months the young princess was dead.

After this series of fatalities the king determined to keep the ring himself, and he slipped it on his little finger. From that moment his health commenced to fail, and in 25 hours he was dead, and the doctors pronounced his case one of the strangest on record, his whole physical system seeming to have crumbled away, every vital organ of his body having suddenly succumbed to the most marked senile decay. Physicians could never quite account for it and the matter was hushed up.

Queen Christina, who is not in any wise superstitious, took possession of the ring after her husband's death, but the other members of the family, with dark Spanish superstition, begged her to destroy it. This she refused to do, but to prevent doing further mischief she hung it about the neck of the patron saint, where it is to-day.

The Spaniards are not satisfied yet, for they declare the ring influences the saint to evil things, and nothing but a series of misfortunes has come to the lot of Spain since the ring was hung on the statue. They credit this year trouble with Cuba, the Philippines and the United States all to the ring, and the queen regent has been begged to destroy it or send it out of the country.

Ed. C. C. Column.

The Silly Gardener.

A gentleman, who owned a beautiful garden, of which he was proud, engaged a gardener to take charge of it, being assured that the latter was a skilled and experienced workman. One day, seeing the garden at work with a pruning knife upon a large plant, he approached to watch operations. "I suppose," said he, "this is some new variety of flower you are so carefully cultivating?" "Oh, no, sir," replied the gardener, "this is a noxious weed and I am doing my best to destroy it." "Why, then, do you not pull it up by the root?" asked the owner. "That plan," replied the gardener, "is not practical. It has been tried in France, Russia and other places, and it is found that the roots cannot be perfectly got out. The weed reappears here and there, do what you will. So I have adopted what is called the regulation and control system. Since the weed cannot be exterminated, I intend to keep it within bounds."

"Well, all I have to say is, you are a fool," replied the gentleman, angrily, "and I have no further use for you in my garden. There is only one thing to be done with weeds, and that is to absolutely root them out." "Then," said the gardener, as he put on his coat to depart, "how comes it that you oppose the prohibition of the liquor traffic, weed, and favor the system of regulation by license?" And as he departed he observed that his late employer was deeply immersed in thought.

IT WILL NOT REMOVE THE EVIL.

"Why not compromise the drink question, for example, by prohibiting distillation and the traffic in all kinds of distilled spirits, taxing fermented beverages as much as they will stand for revenue?"—Chicago Commercial Journal. The reason is simple enough, the active and dangerous principal—alcohol—is common to both distilled and fermented liquors; (2) experience demonstrates that users of fermented liquors have graduated as heavy drinkers of distilled spirits; and (3) some of the most brutal assaults and murders have been committed by men intoxicated with fermented liquors. The prohibitionists can no more make the compromise proposed than the sentinel admit the visitor with the lighted cigarette into the powder magazine.

Wedding Bells.

A very pretty wedding was solemnized on Wednesday, July 6th, the contracting parties being Mr. A. C. Miles and Miss E. Cooper. The bride was assisted by her sister, Miss D. Cooper and Miss H. R. Miles, sister of the groom. Miss Nellie Nixon, niece of the groom, acted as flower girl. The groom was assisted by his brother Arthur. The bride was beautifully attired in white cashmere. The bridesmaids wore dresses in pink cashmere and carried flowers. After the ceremony the wedding party drove out to the house of the groom's parents, where a number of invited guests partook of the wedding breakfast and a most enjoyable time was spent.

The Helpman Party.

Edmonton Bulletin:—Major Helpman, of the Helpman prospecting party, returned to town from Lesser Slave Lake, coming in via the Landing. The remainder of the party are at the lake and the Peace river crossing. The expedition reached Lesser Slave Lake on the 11th inst., after a hard trip. At the lake the men hired to take the outfit through, seven in all, were discharged. Three of them, viz Chas. Alexander, Jas. Cameron Proven and Jas. McBurn came in to town, and the other four, Sidney and Oliver Travis, Chas. C. Hoff and John Oliver remained at the lake.

At the Peace the party is to be formed into two expeditions, one goes down the Peace and the other will prospect during the summer on the Wapiti. The party which goes down the Peace will consist of Major Helpman, Capt. Hall, Dr. Hoops, Dr. Hallwright, Messrs. Jeffries, Baunister and Sandy McDonald. The party to prospect on the Wapiti is composed of: Col. LeQueune, Mr. O'Brien, Chas. Powell, George Gilman and Sam. Cunningham, the latter three being merely employees of the company. Major Helpman came in to arrange for the taking out of additional supplies for the two expeditions. The Glen Campbell party were just getting to the lake on the 17th. They were travelling with travois and had lost only one horse.

There are Others.

One of those men who lack only experience and knowledge to make them great editors said to an editor recently: "We expect the local paper to say all of these good things about us. It goes to help fill up the news columns, and the news is what we buy the paper for." Very true," says the editor editorially, "but did you ever consider that the unpleasant things the local paper might truthfully say about you, but does not, would sell ten papers to the complimentary items one? We regret that human nature is such that way, but it is nevertheless, and the fellow making a local newspaper in the little backwoods where every body is supposed to know everybody else's business better than his own, finds it much more difficult to determine what to leave out of the sheet than what to put in it. Thanks, actually, for the suggestion, but man, well, but you don't know."

Heavy Sides.

The correspondents of Chicago are out on strike, and in consequence all the newspapers of the great American city are unable to appear. The U.S. continues in Friday's battle at Santiago reach 1000, with a death rate of 25 per cent.
